Pfizer Scientist: Natural Immunity Is Better Than the COVID Vaccine

Project Veritas' fourth video in its COVID vaccine investigative series quotes two Pfizer scientists who said natural immunity is better than Pfizer's vaccine, and one who called the company "evil" and said it's "run on COVID money."

Project Veritas released the fourth video of its COVID vaccine investigative series Monday, which exposes three Pfizer officials saying that antibodies lead to equal if not better protection against the virus compared to the vaccine.

Nick Karl, a scientist who is directly involved in the production of Pfizer's COVID vaccine, said that natural immunity is more effective than the very vaccine he works on, and Pfizer produces.

"When somebody is naturally immune — like they got COVID — they probably have more antibodies against the virus … When you actually get the virus, you're going to start producing antibodies against multiple pieces of the virus … So, your antibodies are probably better at that point than the [COVID] vaccination," Karl said.

ORDER TODAY: Robert F. Kennedy, Jr.'s New Book — 'The Real Anthony Fauci'

Notwithstanding, Karl still believes that vaccine mandates are positive for society. He said:

> "The city [of New York] needs like vax cards and everything. It's just about making it so inconvenient for unvaccinated people to the point where they're just like, 'F*ck it. I'll get it.' You know?"

A second Pfizer official, senior associate scientist, Chris Croce, corroborated Karl's assertion about COVID immunity derivative of antibodies:

> **Veritas Journalist**: "So, I am well-protected [with antibodies]?"
>
> **Chris Croce, Pfizer Senior Associate Scientist**: "Yeah."
>
> **Veritas Journalis**t: "Like as much as the vaccine?"

Croce: "Probably more."

Veritas Journalist: "How so? Like, how much more?"

Croce: "You're protected most likely for longer since there was a natural response."

Croce expressed dismay with his company's direction and moral compass:

Veritas Journalist: "So, what happened to the monoclonal antibody treatments?"

Croce: "[It got] pushed to the side."

Veritas Journalist: "Why?"

Croce: "Money. It's disgusting."

...

Croce: "I still feel like I work for an evil corporation because it comes down to profits in the end. I mean, I'm there to help people, not to make millions and millions of dollars. So, I mean, that's the moral dilemma."

Veritas Journalist: "Isn't it billions and billions?"

Croce: "I'm trying to be nice."

Veritas Journalist: "No, I hear you. I hear you. I do. I mean, I'll still give you a hard time about it."

Croce: "Basically, our organization is run on COVID money now."

The third Pfizer scientist, Rahul Khandke, admitted his company demands that its employees keep information from the public.

"We're bred and taught to be like, 'vaccine is safer than actually getting COVID.' Honestly, we had to do so many seminars on this. You have no idea. Like, we have to sit there for hours and hours and listen to like — be like, 'you cannot talk about this in public,'" Khandke said.

Khandke also signaled that proof of antibodies is on par with proof of vaccination.

"If you have [COVID] antibodies built up, you should be able to prove that you have those built up," he said.

Pfizer scientists say natural immunity is far better than the poison death shot heart attack jab. They know damn well these death shots destroy your natural antibodies a.k.a. your immune system. Don't give it to your kids stay pure bloods. Don't violate the temple of the holy spirit. Sunlight is the best disinfectant. Our bodies are our pharmacies as created by God, not Pharmakeia. While Crimes against humanity continues because the masses obey the commandments and doctrines of tyrants. Only way this ends are mass noncompliance against tyranny and to throw out these evil doers in all levels of society! The real pandemic is willful ignorance and mass psychosis.

They find them working for big pharmaceutical, developing and selling dangerous

injections. There are lots of them there.

The tests don't work, how do you know if you have natural immunity when the tests are unsuitable for detection of the virus and set at levels which produce false positives by default? Covid-19 is a disease of attribution to other cause.

The left pushed big pharm VACCINES. The right pushes big Pharm CURES. Big Pharm is not the answer. Tests that don't work to determine immunity isn't the answer. Ending the scam testing is necessary.

The entire premise dissolves:

Of course natural immunity is better. Vaccines are bioweapons. https://secularheretic.subs...

code yellow more like code blue. that company is the biggest waste of taxpayer dollars ever. just checking now to see about the heart attacks..

and i wonder how they pick the companies who run "independent testing" on the samples.. the same way they pick the universities??? so they just give contracts to companies who cook the books and tell them what they want to hear right?

why do people sell the whole country out for a dollar when most people dont need 6 figures.. quit selling your souls for cash that you dont even need! get a normal job. what kind of a "career" is that - helping pfizer kill people!

This is not about reasoning or compiling more and more evidence. That doesn't work. They need to inject the adjuvants to control people

W.T.ACTUAL.F., who in the world of journalism in their right mind uses Project Veritas for a reference for ANYTHING???

I know that even a broken clock is right twice a day but who keeps a broken clock on their wall?

Please, find another source and consign P.V. to the garbage bin of history. Oh, wait, they've already done that themselves.

>
> Project Veritas uses actual video footage from direct sources on the inside to gather evidence. THIS type of journalism has far more veracity than any of the garbage we are spoon fed via the mainstream media.

>
> You are demonizing the source with a glittering generality, a slur, because their information is indisputable, right there on film. VERITAS's information has substance, with names, quotes, and checkable information. When you throw out a general insult, you lose a debate. If you had a specific counter argument, I would listen.

I got a mammogram and they asked me, have you had a vaccine? I said, why. She said if you've had a COVID vaccine it causes lymph nodes to swell for 4 to 6 weeks. Really? This is NOT normal. I've been getting mammograms for 40 years and never once was I asked if I had a flu vaccine or a pneumonia vaccine or any vaccine. Things that make you go hmmm.

Keith Allan Dale • 3 days ago

I agree.
What is never mentioned is that common coronaviruses, that cause
common colds, would also give natural immunity. Human physiology points out that the immune system adjusts to new infections by altering existing antibody production.

That would explain why 80% of those infected with the 19 and variants still have mild to moderate symptoms, because they already have antibodies and T-cells that fight it off just fine.
Dr. Dale

John Hanek ↗ Keith Allan Dale • 2 days ago

Apr2020 I got the "flu". Could not get outa bed for 3 days, then I was fine and I"M 67 YEARS OLD!
The trick is eat only what is found in Nature, i.e. REAL food. That will be a big challenge for those who are hooked on man's garbage. Man's FAKE food kills you slowly. Refined flour and sugar are the cause of all chronic conditions.

This is "news" from the FDA. Comirnaty and Pfizer-BioNTech COVID-19 Vaccine are NOT the same. One has been approved by the FDA and the other is for emergency use only. There is a scarcity of Comirnaty and most likely it will not become available because it doesn't have liability protection.
.....

> **Beware of Fraudulent Coronavirus Tests, Vaccines and Treatments**
> While we remain vigilant to protect our families and communities from COVID-19, some people might be tempted to buy or use questionable products that claim to help diagnose, treat, cure, and even prevent coronavirus disease.
>
> Vaccination is one of the best ways to protect everyone 12 and older from COVID-19. **The U.S. Food and Drug Administration has approved Comirnaty for the prevention of COVID-19 in people ages 16 and older. The vaccine has the same formulation as the Pfizer-BioNTech**

> **people ages 16 and older. The vaccine has the same formulation as the Pfizer-BioNTech COVID-19 Vaccine** that continues to be available under emergency use authorization (EUA), including for people ages 12 to 15. The FDA has also authorized other COVID-19 vaccines for emergency use in people 18 and older. For the latest information on vaccines, visit this FDA page.
